Annual Tuition for my child's enrollment per schedule above \$ _____

Placement in our programs throughout a session is based on **availability, age, and readiness**. Our program age ranges are approximate and may vary throughout a session.

Our school curriculum focuses on age-appropriate academic-based structure and instruction. While we do offer extended hours and various scheduling options for child care, our goal is to provide educational learning standards for students. Our programs are designed to offer much more than child care and supervision. We create our school calendar in advance with closed days, holidays, and built-in snow days that we are not open for school attendance. Our school tuition is annual, not weekly or daily.

*We cannot hold a space in more than one program. At time of registration, if a child has reached his/her third birthday and does not meet all of our bathroom training requirements, the child must be registered for our Young Nursery program. We cannot hold a space in the Nursery program if a child is not fully bathroom trained at time of registration. If a child becomes trained after registering, meets all bathroom training requirements, and is eligible to enroll in our Nursery program, the child may be moved into the Nursery program if there is availability; if not, the child may remain in the Young Nursery program for the session. We cannot register a child after his/her fourth birthday to begin a new school and/or summer session who is not yet trained and who does not meet our bathroom training policy. If a child is older than four years of age and not trained with full independence, we cannot accept registration. A child's class placement at time of registration may be permanent for the entire session.

** Students enrolling in Pre-K and Kindergarten programs for school sessions must be evaluated for readiness by our head teachers prior to enrollment.
